WELCOME

JOIN US ON THIS MOMENTOUS EXPEDITION TO THE BALKANS

We invite you to join Asil and the team on a transformative journey of discovery and connection through the Balkans.

A TRANSFORMATIVE ADVENTURE FOR YOU AND FOR THE EARTH

On our Sacred Earth Expeditions, we visit places where humanity and its diverse traditions have built meeting places, temples, and sanctuaries to connect to ancestors, spirit, nature, Earth, and the cosmos. Sacred Earth Expeditions uncover humanity's capacity for attuning to the energy grids of the planet. They unlock the restorative healing powers found at sacred sites.

ALIGN WITH THE PLANET AND YOURSELF

Asil and the team have been guided to perform energetic grid work at these specific sacred sites, and Asil has received messages and visions that these sites are potent energy portals, capable of activating spiritual awakening and healing on a personal and collective level.

.....

WHY THE BALKANS

THIS EPIC ADVENTURE WILL FOCUS ON THE REALIGNMENT OF KEY POINTS IN THE BALKANS

We will travel throughout Bosnia and Croatia exploring everything from the Bosnian pyramids to the ley lines of Istra and sites along the Croatian coast.

The Balkans region is known for its rich and diverse cultural heritage, geographical richness, and history of conflicts and revival movements, making it a fascinating and unique part of the world. It has been a crossroads between East and West, with influences from Christianity, Islam, and other ancient religions.

BE A PART OF OPENING A CONTINUOUS FLOW OF ENERGY THROUGH YOU AND ACROSS THE EARTH

Throughout time and in recent history, the Balkans region has also witnessed its fair share of conflicts and struggles, which have often resulted in spiritual and cultural revival movements.

We will visit such regions that have stored trauma from conflicts, and will work together with the guides to provide realignments to restore the flow of energy.

"The individuals that are impacted by the work that is completed at these sites are more than you can count, are more than you can imagine. Their lives and the lives of their children and the lives of their ancestors will be impacted by this work. And therefore, carry this work with a certain reverence and importance in your heart. Knowing and understanding the impact is beyond the comprehension of the mind."
